EstateVault — Tester Guide

A complete, plain-English walkthrough of every feature on the EstateVault platform and how to test it. No technical background needed.

Last updated: 2026-05-13 **Platform:** estatevault.us (and partner subdomains like `khanlawgroup.estatevault.us`)

---

1. How to Use This Guide

EstateVault has **five types of users**. Each sees a different version of the site.

User Type	Who They Are	Where They Log In
Client	Regular person creating a will/trust	`estatevault.us` or partner site
Partner	Law firm, advisor, CPA reselling the platform	`pro.estatevault.us`
Sales Rep	EstateVault salesperson	`sales.estatevault.us`
Review Attorney	Attorney reviewing client documents	`admin.estatevault.us`
Admin	EstateVault staff	`admin.estatevault.us`
Affiliate	Referral partner earning commissions	`estatevault.us/affiliate`

Test Accounts You'll Need

Ask the dev team for credentials to:

- 1 fresh client (no purchases)
- 1 client with will purchased
- 1 client with trust + vault subscription
- 1 partner (fully onboarded)
- 1 sales rep, 1 admin, 1 review attorney, 1 affiliate

Stripe Test Cards (Never use real cards)

- **Success:** `4242 4242 4242 4242`
- **Needs verification:** `4000 0025 0000 3155`
- **Declined:** `4000 0000 0000 0002`
- Any future expiry · Any 3-digit CVC · Any ZIP

---

2. Public Pages (No Login Needed)

2.1 Homepage — `/`

Welcomes visitors, explains service, links to quiz.

Test: Open `estatevault.us`. Scroll full page. Click every CTA. Resize browser to phone width. ✅ **Working:** All sections load, no broken images, buttons route correctly. ❌ **Bug:** Blank sections, broken images, dead buttons.

2.2 Professionals Page — `/professionals`

Recruits partners (advisors, CPAs, agents, attorneys).

Test:

1. Move earnings calculator slider — numbers update live.
2. Compare Standard ($1,200) vs Enterprise ($6,000).
3. Submit Request Access form (name, email, phone, company, type, client count, source).
4. Confirm: "We've received your request."

2.3 Perspectives — `/perspectives`

Blog/education. Verify content loads.

2.4 Contact — `/contact`

Fill name/email/message → submit → "Your message has been sent." Try blank → validation error.

2.5 Privacy `/privacy`, Terms `/terms`

Static pages. Verify they load.

2.6 Partner Landing — `/[partner-slug]` (e.g. `/khan-lawgroup`)

Whitelabel landing for specific firm.

Test: Visit `khanlawgroup.estatevault.us`. Verify partner logo, colors, firm name appear instead of EstateVault branding. Click Start → goes to quiz, still partner-branded.

---

3. Sign Up & Login

3.1 Sign Up — `/auth/signup`

Test:

1. Fill full name, email, password, confirm.
2. Mismatch test → "Passwords do not match."
3. Short password (<8 chars) → validation error.
4. Valid form → auto-logged in → land on `/dashboard`.

3.2 Login — `/auth/login`

Test each user type on the correct subdomain. Confirm correct redirect:

- Client → `/dashboard`
- Partner → `/pro/dashboard`
- Sales / Admin → `/sales/dashboard`
- Attorney → `/attorney`
- Affiliate → `/affiliate`

Wrong-host tests (important):

- Partner login on `estatevault.us` → blocked.
- Client login on `sales.estatevault.us` → blocked.
- Partner-locked client on generic site → blocked, told to use partner site.

3.3 Forgot Password — `/auth/forgot-password`

Enter email → submit → "Check your email." Click reset link → set new password → log in with it.

3.4 Vault PIN — `/auth/vault-pin`

4-digit PIN for vault access (separate from password). See Section 6.

---

4. Client Side (Quiz + Documents)

4.1 Quiz — `/quiz`

10-card wizard recommending Will or Trust.

Test full flow:

1. State + marital status → children Y/N → if Y, count + special needs?
2. Real estate? → multi-state? Business? Net worth?
3. Privacy / charity preferences
4. Existing plan? → replace or new
5. Names: finance manager, medical decision maker, child guardian
6. Final situation card
7. Back button preserves answers.
8. Continue blocked if required fields empty.
9. Result screen → recommendation + buttons.

Hard-stop test: Mark child with special needs → app stops, recommends attorney. No document generation.

Beneficiary name test: Enter first name only ("John") → warns name looks incomplete.

4.2 Will Intake — `/will`

Test:

1. Acknowledgment card → Continue.
2. **About:** name, DOB, city, minor children.
3. **Executor:** name, relationship, backup.
4. **Beneficiaries:** add 2 with 60/40 split. Try total ≠ 100% → blocked.
5. **Guardian** (only if minor children): primary + backup.
6. **Gifts:** organ donation, specific gifts.
7. **Review** → "Edit Answers" returns to start; "Looks Good" → checkout.
8. Quiz data pre-fills where applicable.

4.3 Will Checkout — `/will/checkout`

Test:

1. Price = **$400**.
2. Plan-conflict check: if account already has trust → conflict warning shown.
3. Test card `4242 4242 4242 4242` → success → `/will/success`.
4. Declined card `4000 0000 0000 0002` → error, no order.

4.4 Trust Intake — `/trust`

Same pattern as Will but 10 cards. Price = **$600**.

Specific tests:

- **Trustee:** "Myself" auto-fills name; "Someone else" prompts for name.
- **Distribution age:** 18/21/25/30/Custom for minors.
- **POA:** Banking required; "All of the above" toggles every power.
- **Multi-state real estate:** warning about state-specific deeds.
- **Healthcare wishes = Yes:** text area appears.

4.5 Trust Checkout — `/trust/checkout`

Price = **$600**. Plan-conflict check: if account already has will → conflict warning. Same test cards.

4.6 Attorney Review Add-On

During checkout, "Attorney Review (+$300)" option. Adding it sends order to attorney queue (Section 9).

4.7 Will Success — `/will/success`

Test:

1. After purchase, see stepped progress: payment → document generation → ready.
2. Page polls every 5 sec until 3 documents ready (Will, POA, Healthcare Directive).
3. **Sealed PDFs:** require vault passphrase to download. Unsealed: download directly.
4. Attorney review orders: 48h review timeline shown.
5. New accounts: "Set password" prompt appears.

4.8 Trust Success — `/trust/success`

Same as Will Success but 4 documents (Trust, Pour-Over Will, POA, Healthcare Directive). Complex estates flagged for attorney review show "Under review" badge. Asset funding checklist reference shown.

---

5. Client Dashboard

5.1 Dashboard Home — `/dashboard`

Verify:

- "Welcome back, [Name]"
- Progress ring 0–100%
- Next-action card (context-aware)
- Package status card
- Document download/email buttons after purchase

Progress-state tests:

State	Expected Next Action
No purchase	"Take the quiz"
Just purchased	"Sign your documents"
Documents signed	"Set up your vault"
Trust + signed	"Fund your trust"
Account >12 months	Annual review banner

5.2 Documents — `/dashboard/documents`

Test: Download PDF → opens in new tab. Email Documents → confirms send. Execution Guide → witness/notary steps. Check "Documents executed" → progress ring updates.

5.3 Funding Checklist — `/dashboard/funding-checklist` (Trust clients)

Tick asset transfer items → progress updates.

5.4 Amendment Request — `/dashboard/amendment`

Describe change ("Update executor name") → submit → receipt confirmation.

5.5 Life Events — `/dashboard/life-events`

Tick event (marriage, child) → app suggests amendment.

5.6 Settings — `/dashboard/settings`

Change name → save → reload to confirm. Change password → log out → log in with new. Manage vault PIN. Delete account (use throwaway only).

---

6. Vault — End-to-End Encrypted (E2EE)

6.1 Vault Setup (First-Time E2EE Setup) — `/onboarding/vault-setup`

Required before vault can be used. 4-step flow.

Test:

1. Create 4-digit PIN.
2. Create secure passphrase (strong, memorable).
3. System shows **24-word recovery mnemonic** — write it down.
4. Confirm mnemonic by re-entering selected words.
5. Redirect to dashboard. Vault now ready.

Critical: Recovery mnemonic shown only once. Save it. If lost AND passphrase lost → vault data gone forever.

6.2 Recover Passphrase — `/recover`

For owners who forgot passphrase.

Test:

1. Enter 24-word recovery mnemonic.
2. Set new passphrase.
3. Old passphrase no longer works.
4. Vault items still accessible with new passphrase.
5. Wrong mnemonic → "Recovery failed" error.

6.3 Subscription Gate

Non-subscribers see Upgrade modal ($99/year). Upgrade → Stripe checkout.

6.4 PIN Setup & Unlock

First time: Enter 4-digit PIN twice → saved. **Returning:** Enter PIN to unlock.

- Wrong PIN → "Incorrect PIN."
- Correct PIN → vault opens.
- Idle 10 min → auto-locks, PIN required again.

6.5 Categories (8 total) — `/dashboard/vault`

Estate Documents · Financial Accounts · Insurance · Digital Accounts · Physical Locations · Contacts · Business · Final Wishes.

For each:

1. Click card → see encrypted item list.
2. Add Item → form per category (e.g. Financial = institution, type, last 4, notes).
3. Save → item appears.
4. View → modal shows details.
5. Show/Hide toggle on passwords/codes.
6. Delete → item gone.

6.6 Vault Search

Test: Add item → search by label → encrypted result decrypts and shows. Server only sees hashed label, never plaintext.

6.7 Document Upload (Estate Documents only)

1. Drag PDF onto drop zone.
2. Add label + document type.
3. Upload (max 20MB). File encrypted before storage.
4. Click Download → decrypts → PDF opens.
5. File >20MB → blocked.
6. Non-PDF → blocked.

6.8 Trustees — `/dashboard/vault/trustees`

Designate up to 2 people for emergency vault access (post-death).

Test:

1. Add trustee: name, email, relationship.
2. Send invite → email sent.
3. Status: Pending invitation → Awaiting 72h → Active.
4. Revoke trustee → removed.

6.9 Trustee Access Initialize (Shamir Setup) — `/dashboard/vault/trustees/init`

One-time crypto setup splitting master key into Shamir shares (so trustees can unlock without passphrase).

Test:

1. Enter 24-word recovery phrase in browser.
2. System generates shares A (owner), B (ephemeral), C (server-encrypted).
3. "Trustee access initialized" message.
4. Visit page again → "already initialized" status.

6.10 Farewell Messages — `/dashboard/vault/farewell`

Owner records video messages or uploads PDFs for family (released post-death).

Test:

1. Click Record New Message → allow webcam/mic.
2. Record 30–60 sec → add title + recipient email.
3. Save.
4. **Critical:** Save must not complete until upload finishes. If save before upload bar done → bug.
5. Message appears with "locked" status.
6. Delete message → gone.

---

7. Trustee Flow (After Owner's Death)

7.1 Trustee Unlock — `/trustee/unlock?token=[TOKEN]`

Trustee receives email link.

Test:

1. Open link from email.
2. System sends 6-digit OTP to trustee email.
3. Enter OTP → correct code → redirects to `/trustee/vault`.
4. Wrong OTP → error, retry.
5. Expired token → "Token expired" message.

7.2 Trustee Vault Viewer — `/trustee/vault`

Read-only view of decrypted vault.

Test:

1. After unlock, all 8 categories appear.
2. Click category → items list.
3. Show/hide on sensitive fields.
4. Download sealed documents → PDF opens.
5. Idle 30 min → session resets, must re-unlock.

7.3 Trustee Farewell Access — `/farewell/[clientId]`

Test:

1. Trustee submits death certificate (scan/photo).
2. Admin verifies → 72h access window opens.
3. Trustee enters email → unlocked messages appear.
4. Play video → decrypts in browser, plays via HTML5 player.
5. Download PDF → decrypts, saves locally.

7.4 Owner Veto — `/farewell/owner-veto?token=[TOKEN]`

If owner alive when trustee requests access, owner gets email with veto link.

Test:

1. Trigger trustee access request.
2. Owner opens email, clicks veto link.
3. Page shows request status.
4. Click "I'm alive — Cancel Access."
5. Farewell messages revert to "locked."
6. Trustee receives rejection email.

---

8. Partner Portal — `pro.estatevault.us`

8.1 Onboarding

Fresh partner forced through steps:

1. Company info, license 2–4. Vault customization (if vault tier)
2. Training consent
3. Review & launch

Skip required field → blocked. Complete all → `/pro/dashboard`.

8.2 Dashboard — `/pro/dashboard`

Verify firm logo/colors/name. Stats display.

8.3 Clients — `/pro/clients`

Test: View list. Invite New Client → referral link. Open link incognito → partner-branded signup. Signup → partner sees new client. Click client → progress + orders.

8.4 Vault Clients — `/pro/vault-clients`

View vault subscribers. Create new vault client → Stripe checkout → client email to set up.

8.5 Marketing — `/pro/marketing`

Browse templates, download copy.

8.6 Referrals — `/pro/referrals`

Copy referral link. View stats.

8.7 Revenue — `/pro/revenue`

View chart. Change date range. Verify splits: Standard ($300 will, $400 trust) / Enterprise ($350 / $450). Payout history.

8.8 Sales Sub-Portal — `/pro/sales/*`

Pipeline (Kanban), commissions, new partners. Drag deals → persists after reload.

8.9 Training — `/pro/training`

Module 1 → unlocks Module 2 → all modules → exam. Pass = 80%+. Pass → training complete.

8.10 Settings — `/pro/settings`

Upload logo → appears client-side. Set custom colors → branding updates. Connect Stripe. Add team member email.

---

9. Sales / Admin Portal — `sales.estatevault.us`

9.1 Sales Dashboard — `/sales/dashboard`

Overview: pipeline, commissions, assigned partners.

9.2 Pipeline — `/sales/pipeline`

Kanban drag-drop. Stage change persists.

9.3 Partner Commissions — `/sales/commission`

Test: Commission breakdown. Default rate = **50%** for salespeople. MTD breakdown table shows Status column.

9.4 Partners — `/sales/partners` (Admin only)

View all partners. Filter by status. Open partner → details.

9.5 New Partner — `/sales/new-partner`

Fill form → partner invited.

9.6 Farewell Verification — `/sales/farewell-verification` (Admin only)

Test: View pending requests. Review death certificate. Approve / reject. Approve → trustee gets access email.

9.7 Sidebar Label

Admin login: sidebar says **"Admin Portal"**. Sales rep login: sidebar says **"Sales Portal"**.

---

10. Attorney Portal — `admin.estatevault.us/attorney`

10.1 Attorney Dashboard — `/attorney`

Auto-redirects to `/attorney/dashboard`.

10.2 Review Queue — `/attorney/reviews`

Test: Queue of orders with attorney review purchased. Click order → intake + draft docs. Add comments. Approve or Needs Revision. Client emailed.

10.3 Attorney Pipeline (Kanban)

Compact cards, no horizontal scroll. Drag-drop persists.

10.4 Attorney Signup — `/partners/attorneys/signup`

Public application. Fill, submit. Status: pending_verification.

10.5 Welcome — `/partners/attorneys/welcome`

New attorney lands here. "Ready" → waits for admin approval.

---

11. Affiliate Program

11.1 Signup — `/affiliate-signup`

Fill form, accept terms → Stripe Connect → complete → status active.

11.2 Dashboard — `/affiliate`

Test:

1. Copy referral link (`/a/[code]`).
2. Open incognito → lands on homepage.
3. Sign up new client through link.
4. Place order with test card.
5. Affiliate dashboard: clicks +1, conversions +1, earnings updated.
6. Payout history.

11.3 Referral Link — `/a/[code]`

Tracks click silently, redirects to homepage.

---

12. Cross-Cutting Always-Test

12.1 Pricing — NEVER Changes

Item	Price
Will Package	$400

Item	Price
Trust Package	$600
Attorney Review Add-On	$300
Amendment	$50
Vault Subscription	$99/year

Any different price = bug.

12.2 Forbidden Language

Platform must **never** say:

- "We recommend..." (must say "Based on your answers...")
- The word "death" in client-facing copy
- Anything sounding like legal advice

12.3 Hard Stops

- Special needs dependent → stop, refer to attorney.
- Irrevocable trust requested → stop, refer to attorney.

12.4 Plan Conflict

- Account has will → trust checkout shows conflict warning.
- Account has trust → will checkout shows conflict warning.

12.5 Emails to Verify

- Signup confirmation
- Password reset
- Order confirmation
- Document ready
- Trustee invitation
- Trustee OTP (unlock)
- Farewell release notification
- Owner veto email
- Affiliate payout
- Contact form submission
- Partner request access confirmation

12.6 Mobile / Tablet

Re-test on phone: Homepage, Quiz, Will/Trust intake, Dashboard, Vault. Tappable buttons, readable text, no horizontal scroll.

---

13. How to Report a Bug

Log every bug in the shared bug-tracking sheet with these columns:

1. **Priority**
2. **Bug ID**
3. **Title**
4. **Description**
5. **Expected**
6. **Page/Panel**

Bug tracker: Open Bug Tracking Sheet

---

14. Quick-Reference Test Matrix

Area	Critical Tests
Auth	Login per role on correct host; wrong host blocks
Quiz	All 10 cards; hard stop on special needs
Will	Beneficiary shares = 100%; review summary correct
Trust	Trustee picker; POA "all of the above"; distribution age
Checkout	$400 will, $600 trust; plan conflict warning; declined card error
Success Pages	Documents poll and become downloadable; sealed PDFs need passphrase
Vault Setup	PIN → passphrase → 24-word mnemonic → confirm → redirect
Recovery	Mnemonic + new passphrase replaces old
Vault	PIN unlock, 10-min auto-lock, drag-drop PDF, encrypted search
Trustees Init	Recovery phrase → Shamir shares stored → "Initialized"
Trustees	Invite → 72h timer → active
Trustee Unlock	Email link → OTP → vault viewer
Trustee Vault	All 8 categories decrypt; 30-min idle reset
Farewell Owner	Video doesn't save before upload completes
Farewell Trustee	Cert verified → 72h access → videos play, PDFs decrypt
Owner Veto	Veto link → cancel → trustee notified, messages re-lock
Partner	Onboarding 7 steps; branding applied; client list updates
Sales	Pipeline drag-drop persists; 50% default rate
Attorney	Review queue; approve/revise notifies client

Area	Critical Tests
Affiliate	`/a/[code]` tracks click → signup → order = commission

End of Guide. Work through it section by section. Don't skip wrong-host auth tests and E2EE recovery/trustee flows — those catch the biggest issues.
